RIBBON CUTTING TO MARK OPENING OF TECH ADVENTURE
NOW OPEN IN NANUET

Technology Education and Entertainment Converge at Rockland County’s
Premier STEM Enrichment Center for Children and Teens – taking Science, Technology,
Engineering and Math Exploration to the Next Level.

(Nanuet, NY) May 25, 2016 – Tech Adventure, Rockland County’s premier STEM Enrichment Center located on Route 59 in Nanuet will celebrate its grand opening with a ribbon-cutting ceremony on Tuesday, June 7th from 5:30 – 7:00pm. The owners and staff of Tech Adventure will be joined by local elected officials, members of the Rockland Business Association, members of the educational community and the public, to mark the opening of their new venture that merges technology and science education into an engaging, entertaining learning format. The ribbon cutting will be followed by an open house and technology demonstrations.

Tech Adventure makes technology education feel more like entertainment in its brand new 4,000 square foot STEM (Science, Technology, Engineering, and Math) enrichment center for children and teens. Tech Adventure will provide students, K-12 with a real academic edge through its innovative and exciting tutoring/after-school program. Programs include LEGO Robotics, Computer Programming, Minecraft Science Game-based Learning, 2D/3D Animation, 3D Modeling and Printing, Video Game Modeling and Design, Videography, App Creation, YouTube Video Creation, Chemistry/Physics and so much more. Its focus is for children to learn and explore science and technology in an engaging, interactive, and creative environment. Tech Adventure is also the place to be this summer with registration is ongoing for the “hottest” Summer Camp in Rockland County, with 8 sessions running from July 11 through September 2. More info is available on their website.

"Tech Adventure is like space camp, a tech store, an arcade, a museum, and an amusement park all rolled into one. We don’t just play with Legos and computers – we have a curriculum that strives to develop and enhance 21st century skills such as creativity, innovation, high-level critical thinking and problem solving, and collaboration," says founder Alysson Burgos. “It’s an exciting environment that inspires energetic exploration.

(Con’t)
Tech Adventure engages its students in STEM education to advance their interest and consistently challenge them to discover ways to apply STEM including new hobbies and personal interests. Tech Adventure also provides students with an edge for their future education; giving them a solid foundation and the keys to develop an advanced knowledge-base in advanced STEM applications.

Rockland’s first high-quality, after-school enrichment program is a technology entertainment super-center focused solely on STEM and entirely on fun. The programs offered are unique, innovative and designed to capture the attention and interests of children and teens, aged 4-18. In addition to the structured programs and classes, Tech Adventure offers a unique, MakerSpace, where students can explore and test – in a free-style format using materials and resources provided. It also has a homework area with computer resources along with highly-qualified tutors available to answer questions or to provide one-on-one tutoring help.

“Alysson Burgos and her team at Tech Adventure have made a commitment to Rockland County by opening this exciting, state-of-the-art learning facility here. Their investment is certain to bring future successes to the students who participate and to the staff who are employed there. We look forward to helping them grow their business and to become the cornerstone of the STEM technology enrichment in our area,” said Al Samuels, President/CEO Rockland Business Association.

###

ABOUT STEM
STEM is a curriculum based on the idea of educating students in science, technology, engineering and mathematics by integrating the four disciplines into a cohesive learning model based on real-world applications.
